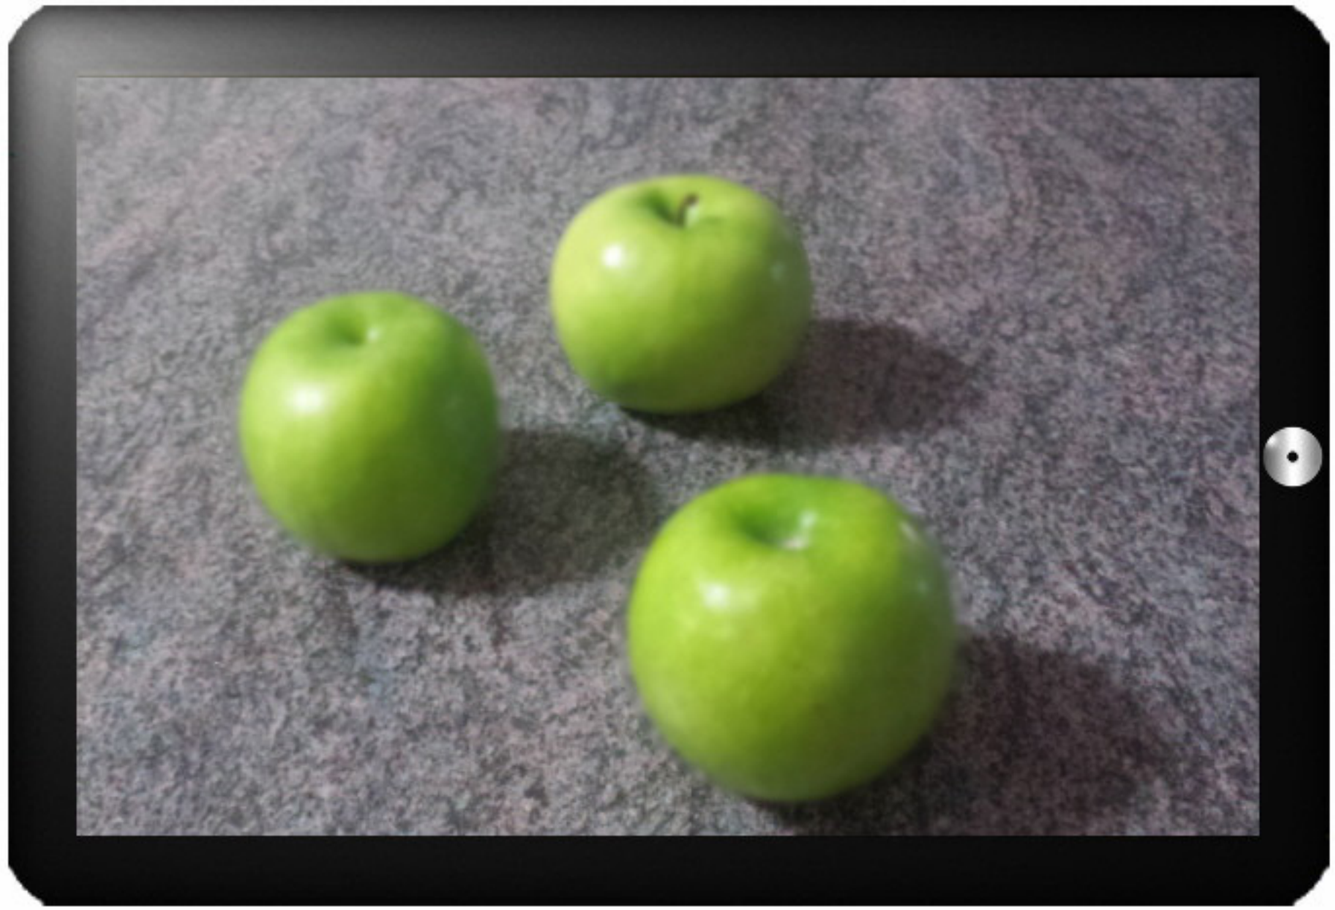
Setting the Focus

In this lesson, we'll be taking a look at
Setting the Focus.

Estimated Completion Time: **5 minutes.**

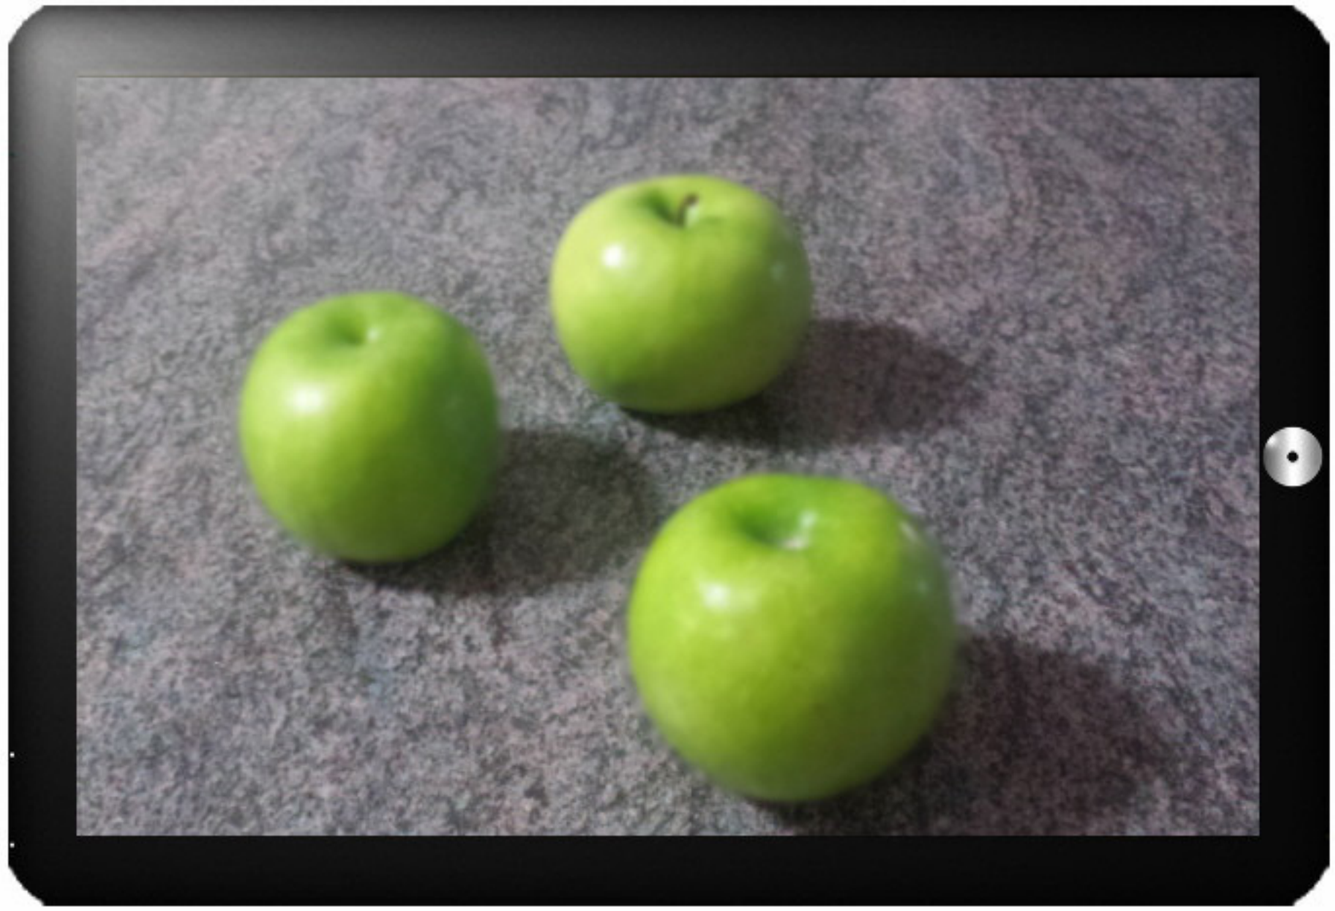
Setting the Focus

On most mobile devices, you can focus on any particular part of an image by touching it. In a moment, you'll be trying this with the example below.



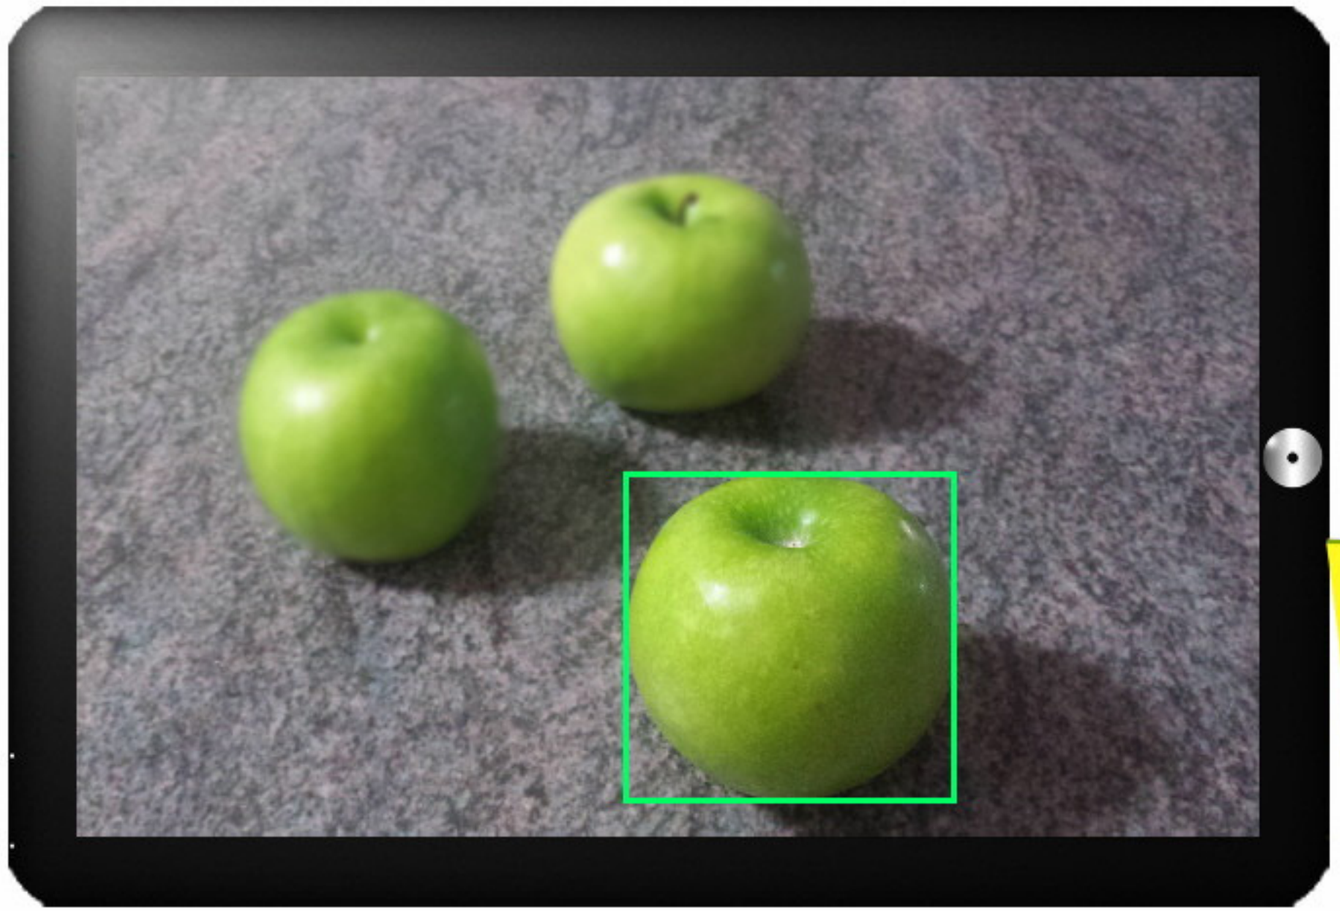
Setting the Focus

This image has three apples in it. Touch (or click) any one of these apples to set the focus of the photo on that apple.



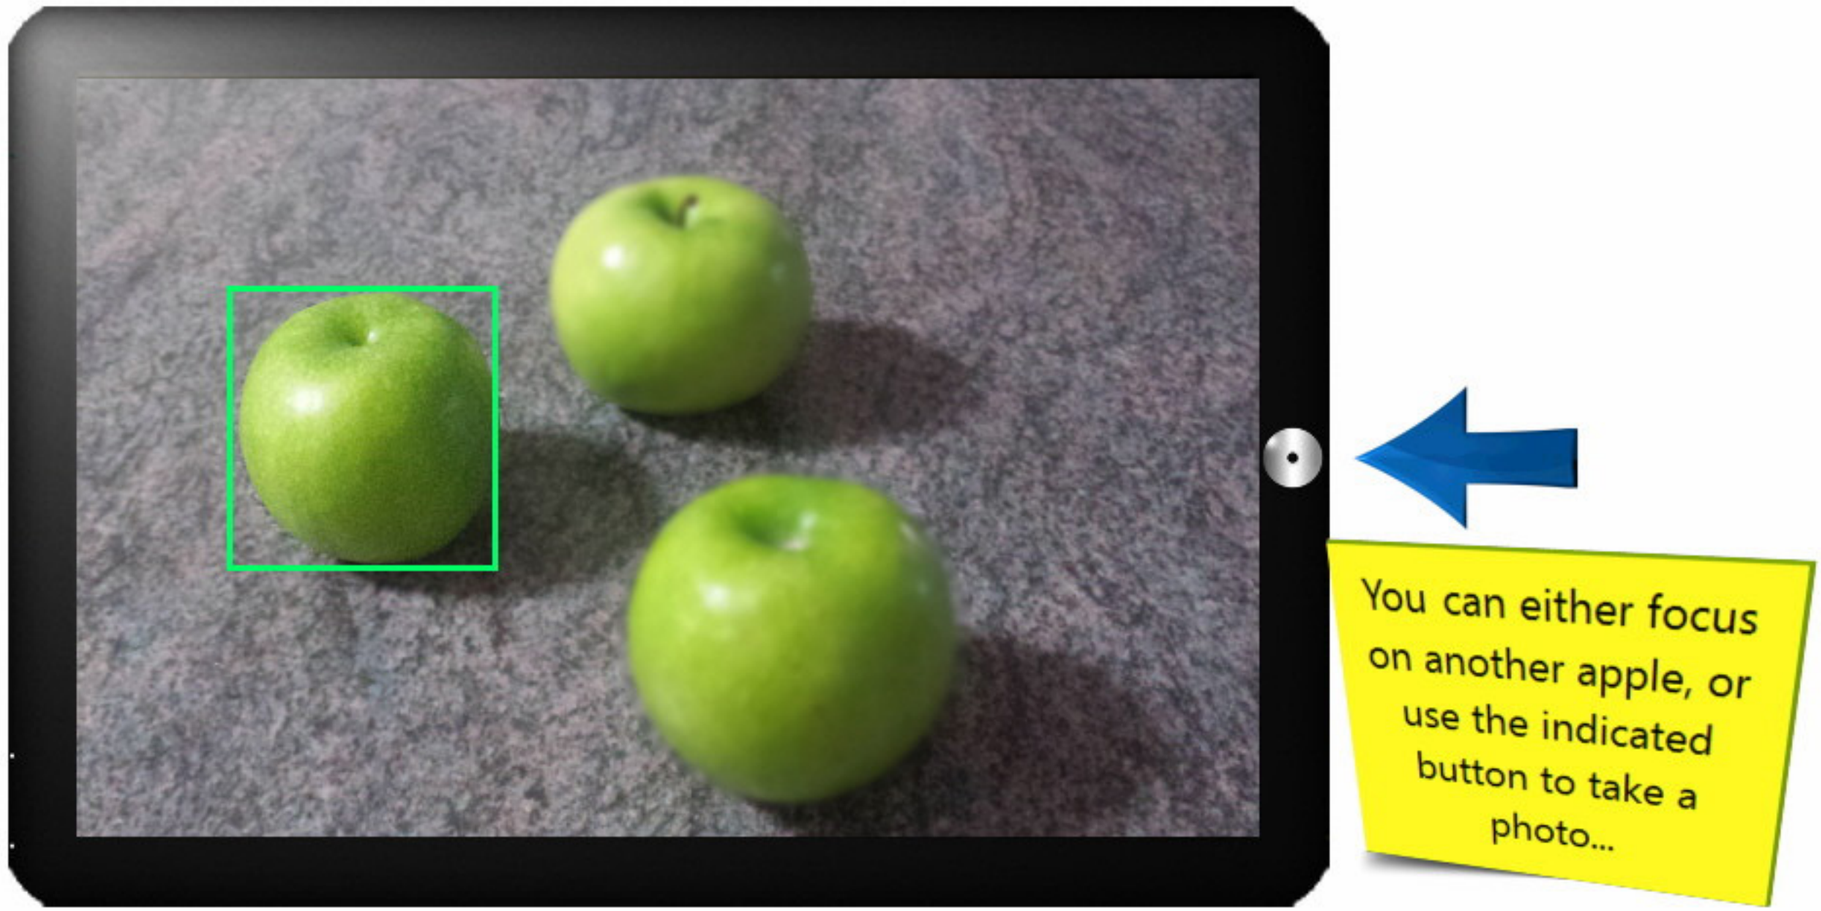
Setting the Focus

This image has three apples in it. Touch (or click) any one of these apples to set the focus of the photo on that apple.



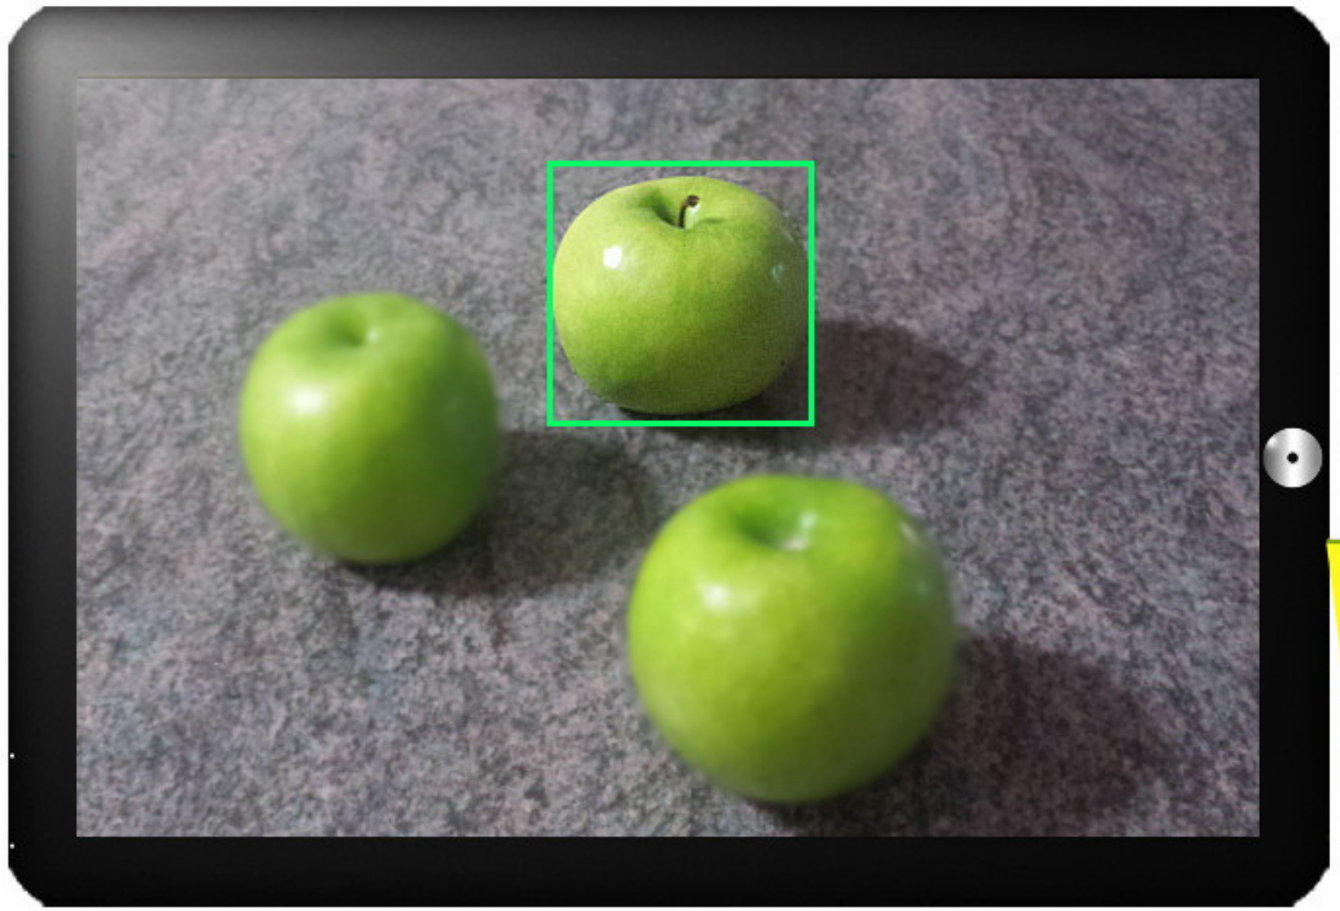
Setting the Focus

This image has three apples in it. Touch (or click) any one of these apples to set the focus of the photo on that apple.



Setting the Focus

This image has three apples in it. Touch (or click) any one of these apples to set the focus of the photo on that apple.



Setting the Focus

And here *is* your photo!

Try it Again...

Setting the Focus

And here *is* your photo!

Try it Again...

Setting the Focus

And here *is* your photo!

Try it Again...

Setting the Focus

You've now completed this lesson.

In this lesson, we took a look at **Setting the Focus.**
