

Patterns, Lines, Repetition

In this lesson, we'll be taking a look at
Patterns, Lines, Repetition.

Estimated Completion Time: 12 minutes.

Patterns, Lines, Repetition

Patterns, lines and repetition are one of the real arts of photography. Patterns are everywhere in life - but quite often overlooked. If you can capture them in a photograph, you can create an image with real impact.

Patterns, Lines, Repetition

Although patterns are everywhere, it can take a little practise to truly see them - and even more practise to capture them in a photograph.

Patterns, Lines, Repetition

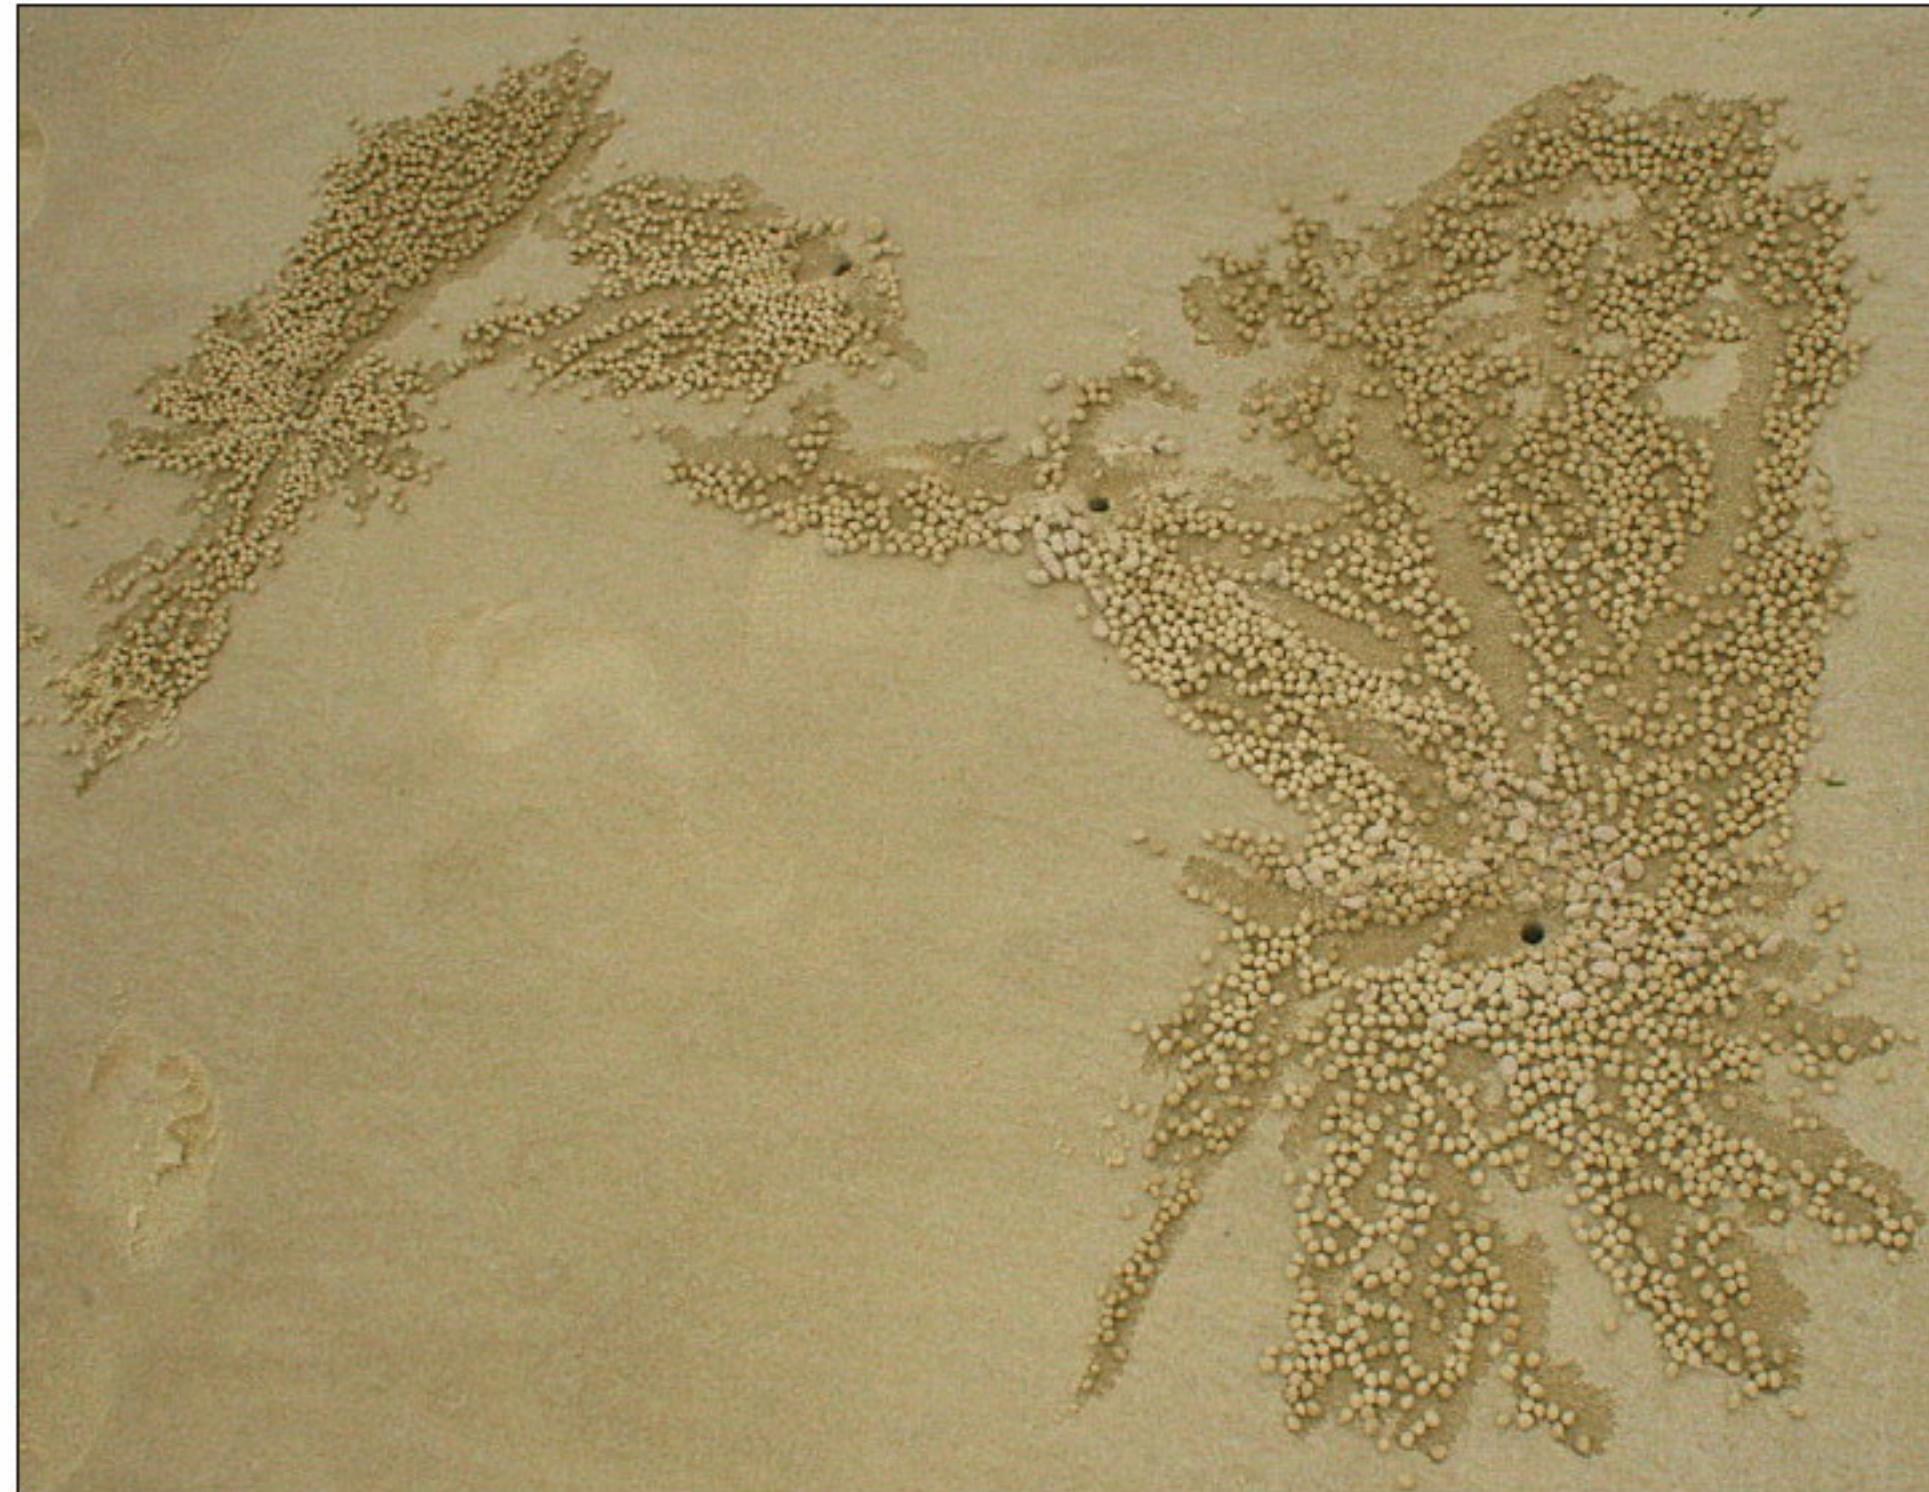

Finding lines in nature will create interest, and lead the user's eye in the image.
